DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- 5 I. Claims 1 – 10, drawn to a method for manufacturing fiber-reinforced plastic compositions, classified in class 427, subclass 209.
- II. Claims 11 – 23, drawn to an apparatus for manufacturing fiber-reinforced plastic compositions, classified in class 118, subclass 400.

The inventions are distinct, each from the other because of the following reasons:

- 10 2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process can be practiced by another materially different apparatus: a vat or tank containing the fluid plastic
- 15 material into/through which the fleeces/mats are dipped/passed to impregnate them with the plastic material. Further, the apparatus can be used to practice another and materially different process: the application of a liquid treatment solution that does not reinforce the fleeces/mats, such as a dye-containing solution, a biocide-containing solution, or a fireproofing compound-containing solution.
- 20 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. George E. Quillin (reg. no. 32,792; tel. no. (202) 672-5413) on 10 July 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P. Fletcher III whose telephone number is (703) 308-7956. The examiner can normally be reached on Monday through Friday, 9 AM to 5 PM.
